## *School Improvement Plan Pupil and Parent/Carer Version*

Every year we evaluate our curriculum delivery and our pupil's experiences. This is carried out through staff audits, tracking of pupils attainment, observations of learning and feedback from all our stakeholders. We regularly consult the Parent Advisory group and our pupils at assemblies and on our School Improvement plan wall. Pupils help us make improvements by taking part in committees and working on areas of this improvement plan. This is documented on the full school improvement plan on our website. We also work very closely with our cluster on all areas of the plan to ensure equity for all pupils and support effective transition.

---

Literacy and 1+ 2 Languages	Work with staff, pupils and parents to understand what success in Literacy is and have ways to record this to share with all stakeholders. Introduce French across the whole school giving all pupils the opportunity to learn a second language and appreciate the culture.
Assessment and Moderation	Look at how we assess on pupils progress in Literacy and Numeracy and Expressive arts, ensuring our expectations are consistent with schools across the authority.
Broad General Education	Work with cluster colleagues and our Secondary partners to share how we deliver the broad general education through our focussed topic work and experiences.
Rights Respecting Schools	We are working to achieve our Level 2 award with a focus on respectful behaviour, supporting global and local campaigns and charities helping us to develop the 4 capacities to be Responsible Citizens, Effective Contributors and Confident Individuals. This will also require us to look at learning for sustainability.
