We have been discussing the 17 Sustainable Global Goals and talking about how we can help to attain them. We have been making paper chains to display around our school with our ideas.

Our discussions were very interesting and some people had really good ideas.

We help attain these goals by providing food, care and items for the children we support.

We also do a lot through our Eco work in school as we work towards our third green flag.

We are thinking about these goals through the many topics we cover in school and through our committees and campaign work.
